

亞樂米雙層式料盤

ALMINCO CHAMPION PAN FEEDER NEW EDITION

第二代

亞樂米企業有限公司專為
養雞戶所開發的新一代飼料盤，
不但帶來了更多的優點，
並且可以讓您在安心的飼養之餘，
得到更多的利益。
讓我們在公元2000年的現在，
開創養雞新紀元。

A NEW EDITION OF PAN FEEDER IS DESIGNED
BY ENGINEER DEPT. OF ALMINCO
ENTERPRISE CO., LTD.
TO PROVIDE YOU MORE
BENEFITS & CREATE A NEW LIVING
ENVIRONMENT FOR CHICKEN.

榮獲：美國／中國／台灣 專利

OBTAINED: USA PATENT / CHINA PATENT / TAIWAN PATENT

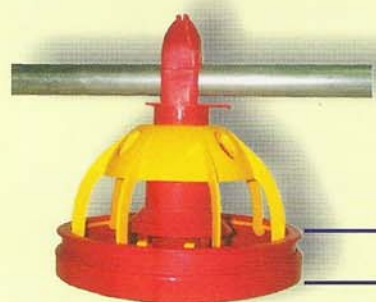

雙層式料盤

TWO STAGE FEEDING PAN

5.53 cm

此料盤第一特點為雙層式組合。當它放置於地面時，料盤為低階段狀態，小雞可以很容易的吃到飼料，當雞隻越來越大時，料線可以配合雞的高度升起，此時料盤會自動調整到高階段狀態並容納更多的飼料。

7.8 cm

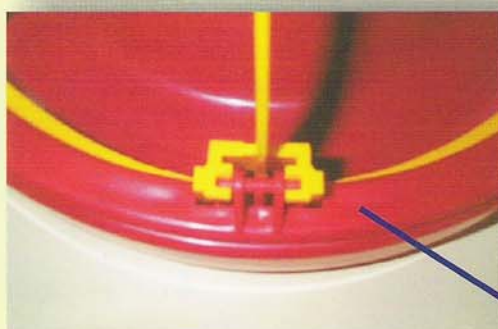

The bottom pan is two-pieces assembled with the function of two stage feeding. For day-old birds, the pans are placed on the ground with low position, which would allow small birds to eat the animal feeds easily. The feeding system could winch-up when the birds turn into adult birds, the bottom pan would automatically set into high position so it could contain larger and enough amount of animal feeds for adoult birds.

飼料回收及容易清洗

ANIMAL FEEDS RECYCLE & EASY TO CLEAN-UP

料盤可以非常簡易的從護網拆除並且扣在護網上，這樣的設計不但可以讓使用者將剩餘的飼料回收，而且不論水洗或高壓沖洗皆可輕易的清除料盤上的殘餘物。

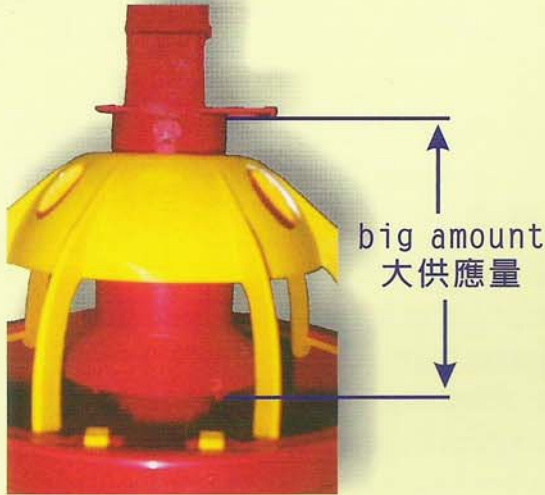

It's easy to dismantle the bottom pan from the grill. This design is convenient either the user wants to recycle animal feeds or clean-up after harvest. (Water flushing is doable.)

(Hanging design)

自動調節飼料量

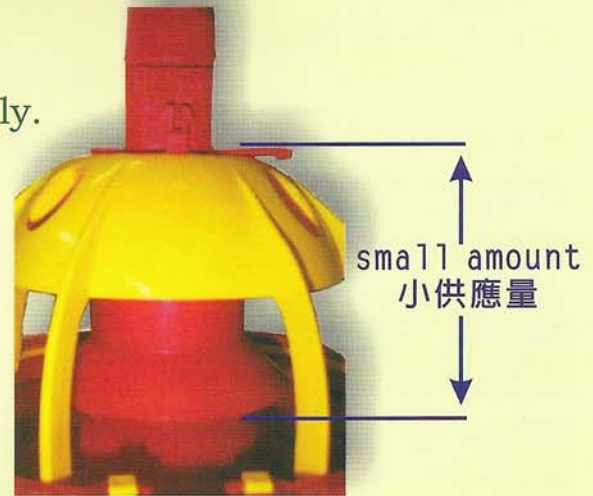

AUTOMATICALLY ADJUST FEED AMOUNT

亞樂米的料盤有著最方便的自動控料裝置。當它放置在地上時，它會自動供給小雞較小量的飼料；當料線因雞隻長大而升起時，料盤會自動調節到更大的飼料供應量，如果飼料供應量還是不足時，料盤提供了手動控料裝置，您可以自行調整到您滿意的供應量。

(Winch up 升起時)

The feed amount could be adjusted automatically. It would adjust to the small amount when it's placed on the ground, so it wouldn't waste too much animal feeds for small birds. When the feeding lines winch-up, it would adjust to the big amount so adult birds would have enough animal feeds. If the given amount is still not enough, you could adjust to bigger amount by adjusting two bars manually.

(On the ground 放置地面時)

飼料開關閥

FEED CONTROL GATE

每個料盤都有一個閥門，當雞舍的一部份地方設為小雞的保溫區時，其他地方的料盤就可以將閥門關閉，以節省飼料的浪費。

There is one feed control gate on each Feeding pan. You can stop the feed drop individually at the un-brooding area during brooding period.

(Control gate close 閥門關閉)

(Control gate open 閥門開啓)

簡便的安裝及更換

EASY INSTALLATION & REPLACEMENT

(Swing free 不會搖晃)

料盤與鍍鋅料管的接合適依靠下料管及頂蓋固定在料管上，此方法可以讓您很容易的組裝，而且如果料盤有個別的損壞，您可以直接在不影響、不拆卸別的部分情況下，單一更換損壞的料盤。

The drop tube is designed into two pieces, which would make every feeding pan easy to install and dismantle. Once there is a damage with the feeding pan, It's allowed to replace the pan individually without removing galvanized tube, auger and other parts.

可移式控料盤

REMOVABLE FEEDING CONTROL PAN

(Control pan with capacity sensor 控料盤與容量感應器)

特殊設計的可移式控料盤包含著一個可停止傳送飼料的容量感應器，這個控料盤可隨時因應需要移換到任何位置，尤其是在設立小雞的保溫區時，您更可以發現它的方便及好處。

The unique design of pan feeding system, it contains one control pan with capacity sensor, which could remove to any feeding location. It is very useful and convenient when brooding area is needed to shorten or extend.
